

CALL OUT EXPRESSION OF INTEREST

GLASS CUBE Gallery | Artists and Emerging Curators

Ruth Allen 2009

FAC and Cube Galleries invite all creative practitioners and their Expressions of Interest to exhibit in or curate a series of exhibitions in FAC's Glass Cube Gallery space. Submissions can be for a sculpture, digital art projected onto its purpose built facade, design furniture or a pop up shop selling quirky stuff; let your imagination run wild – the sky's the limit! Original, unusual and unique installations are what we are looking for. So if you think your idea is the one to watch out for, send us your exhibition ideas.

Submit your proposal to Visual Arts Officer

ABOUT FAC

The FAC is a purpose-built performing and visual arts venue. It is one of the largest outer metropolitan arts venues in Australia incorporating an 800 seat theatre, 5 exhibition gallery spaces, a function centre, a 192 seat black box theatre and a creative arts hub.

The Centre attracts approximately 250,000 visitors through its doors each year. Over 50% of visitors come from outside the Frankston municipality, most notably from the Mornington Peninsula and Westernport regions, as well as Melbourne's bayside and along EastLink to Ringwood.

Renowned for its variety of theatre, visual arts and digital arts, from local, national and international artists, FAC's mission is to provide and inspire creative experiences that strive for positive community participation and engagement.

GLASS CUBE GALLERY

In addition to the Curved Wall, Atrium and Cube Gallery, Art + Gift Boxes, the FAC boasts of its signature gallery space of the Glass Cube Gallery. Cube 37 derives its name from the Glass Cube which is a Frankston landmark familiar to those that drive or walking past the FAC. The Glass Cube Gallery defines the image of Cube 37 and aims to showcase artwork that crosses all bounds of imagination.

The Glass Cube can be viewed at all times from the street front, not only by the 250 000 patrons that visit the FAC annually but also by passing foot and road traffic.

EXHIBITION OBJECTIVES

The objectives of The Glass Cube Gallery are:

1. Enhance the reputation of Cube 37 and Frankston City
2. Innovation and Originality
3. Provide a forum for collaboration of various art forms
4. Make arts and culture accessible for the community of Frankston
5. Provide a platform for community engagement

GENERAL GUIDELINES

Speed of Light, Ian de Gruchy

- Daytime exhibitions generally consist of three dimensional works that are site specific and can also viewed through the night. Sculpture based installations and sound art applications are strongly encouraged.
- Audience interaction can be encouraged within the space during gallery opening hours or the installation can be viewed from outside the glass walled gallery from a distance.
- Light based projections, video and cross media art forms and soundscapes are encouraged during night hours.
- Exhibitions are viewed at night time from outside the glass studio including a major audience of passing traffic and guests entering and leaving the performing arts centre.
- 3D installations are preferred from October to April due to longer daylight hours and digital installations are preferred during the other times of the year. However, if logistical requirements permit, a combination of the two is encouraged. Please speak to the Visual Arts Officer if you are in doubt.
- Collaborations between digital and sculpture artists are suited to the space.
- Please note that height restrictions may apply for artworks within this space.
- The gallery spaces at the Frankston Arts Centre are open to the public and as such all artwork exhibited needs to be suitable for all ages and general public.
- Applications for exhibition space accepted throughout the year.

Art After Dark

EXHIBITION SUBSIDY

- Glass Cube Gallery has an allocation funds to support the installation of digital, sculptural artworks and pop-up projects. Please complete your cost estimates for your project as part of the application process. Emerging curators may request multiple exhibition slots.
