

# FAC Invention Factory

## ☑ Checklist

Things you could use to create your own chain reaction machine!  
These are just ideas - be creative in finding things around your house.

- Jars and containers
- Nails, nuts and bolts
- Mugs, cups and glasses
- Golf and pingpong balls
- Marbles
- Potato masher
- Pegs
- Sieves & tongs
- Bulldog clips
- Magnets
- Padlocks, big nuts, fishing weights (or small heavy things)
- Tracks to roll stuff on
- Clamps
- Hammer & other tools
- Cork board pins & sewing needles
- Playdoh
- Dowels & other pieces of wood
- Measuring tape
- Balloons
- Stuff on wheels like cars or animals
- Hot glue gun (if you have a grown up to help)

Visit [thefac.com.au](http://thefac.com.au) from the start of the school holidays to watch the videos and start inventing!
